# Faisal Rehman

Software Engineer | MERN Stack Web Developer
faisalrehman6696@gmail.com | +923128077934 | LinkedIn: faisalrehman | Bahria Town phase 7, Rawalpindi

## EDUCATION

**The University of Lahore** ***2020-2024***
*B.S. in Software Engineering*

## EXPERIENCE

**Full Stack Web Developer (Self-Employed)**

- Built and deployed multiple full-stack MERN applications with Express.js, API integration, and using RESTful APIs.
- Implemented secure authentication (JWT), version control (Git/GitHub), and deployed apps using Vercel and Netlify.

**MERN Stack Intern - Rawalpindi Eziline Software House - Onsite *Sep 2024 – Jan 2025***

- Collaborated with a team on real-world full-stack web applications using the **MERN stack.**
- Contributed to database modelling, backend APIs, and frontend integration using **MongoDB**, **Express**, **React.js**, And **Node.js**.

## PROJECTS

**E-commerce Store**

- Full-featured MERN stack app with product browsing, order placement, and an admin dashboard.
- Implemented full CRUD functionality for product and order management.

**Ehsas-hub**

- Developed with React.js, Node.js, Express, and MySQL for managing book donations.
- Enabled users to request/donate books, while admins can approve/reject accounts (Needy, Donor, and Volunteer).
- Integrated **Nodemailer** for automated email notifications upon signup and account status changes.

**Blog Post Platform**

- Built a full-stack blog system using **React.js, Node.js, Express, and MySQL.**
- Enabled users to read and search posts, while admins had full **CRUD access** for managing blog content.

**JWT Auth System**

- MERN stack auth system: register, login, password reset using JWT.
- Features include user registration, login, password reset, and token-based session management.

**React Clone site**

- Created a fully responsive **clone of Hepta and Colorlib** websites using **React.js**.
- Built with reusable components, hooks, and custom layout for modern UI/UX design.

**Portfolio**

https://portfolio-ivory-one-84.vercel.app

- Designed and developed a personal portfolio using **React.js** showcasing projects and skills.
- Implemented clean layout, animations, and reusable component structure for scalability.
